

## Flexibility and lightness

**pierreplume®** is supplied in pre-cut sheets or modules.

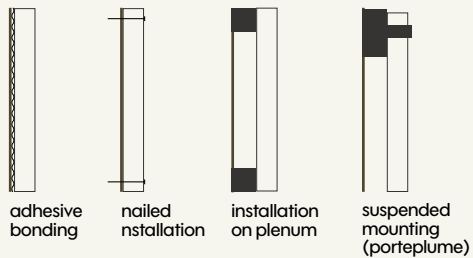

Cuts can also be made manually using a wide-bladed cutter.

The material can be installed in various ways: glued, nailed, or suspended.

## La Tuile

The tile modules are installed in staggered, overlapping rows, which enhances sound absorption. They can also be installed by nailing or gluing, depending on the type of wall.

# Custom cuts

Our digital cutter allows us to  
make highly precise cuts.
